

## **Assistance for Wheelchair Accessible Bathroom & Toilet**

**Name :** Luke Seruvatu Raibevu

**DOB :** 27.06.1955

**Disability :** Diabetic Amputee – Both Lower Limbs

**Address :** Delaivalelevu, Khalsa Road, Valelevu

**Needs Assistance:** New Extension to construct wheelchair Accessible Bathroom and Toilet.

---

Since 2012, Luke has been living with amputee to his right leg and in 2016 his left leg was imputed due to diabetes.

Scoping and talanoa with Luke informed that his toilet and bathroom as it is, inaccessible.

The bathroom and toilet floor are below the level of the whole house floor. Luke cannot wheel himself to use the bathroom or toilet. Needs assistance of someone to physically carry him out of his wheelchair and into the bathroom and toilet. His wife (carer) is now physically aging and so finds lifting him quite strenuous. Ten (10) years has passed, Luke has been struggling with his daily living.

Dear wife yarned, at times in order to give his wife less work load he tries to get to the bathroom and toilet on his own, by arranging empty biscuit containers and buckets to climb on, lowering himself to crawl. Much to both their disappointment, in the process he falls down.

With the assistance to his clean and safe accessible bathroom, toilet and wash area completed, Luke will no longer be exposed to unhygienic conditions. He now has accessibility to water for wash.
